

**ALAMEDA CORRIDOR**  
**OUTSIDE COUNSEL LEGAL SERVICES**  
**Request for Proposals dated January 24, 2023**

***Addendum No. 1***

Issued February 10, 2023

Notice is hereby provided that certain modifications are being made to the published Request for Proposals, as set forth herein.

**1. Section 3.3.1 Transmittal Letter is hereby revised as follows:**

The sentence, "Include a statement in the cover letter indicating that the firm will accept and enter into an agreement with the terms, including insurance and indemnification requirements, as set forth in Attachment 1." is removed in its entirety and replaced with the following:

"Proposers are requested to either 1) include a statement in the cover letter indicating that the firm will accept and enter into an agreement with the terms, including insurance and indemnification requirements, as set forth in Attachment 1 OR 2) include a statement in the cover letter indicating that the firm is requesting certain modifications to the agreement terms set forth in Attachment 1 and include as an appendix to the proposal a mark-up/redline for the particular agreement terms in which modifications are requested. For each section so modified, please include a brief narrative explaining the reasoning behind the requested change. ACTA may consider modifications to agreement terms that address issues that impact all firms collectively, and as such, any approved modifications will be made for all firms uniformly. Proposers are cautioned, however, that the agreement terms set forth in the RFP reflect current agreements with law firms, and as such, approved modifications will be conservative in nature and made only to address specific issues that impact all firms collectively (e.g., in areas of insurance coverage and conflicts). Therefore, please refrain from suggesting modifications that may be considered stylistically preferred, but non-substantive, in nature."
