EXHIBIT A – ACTA AGREEMENT 885

RAILWORKS TRACK SERVICES, LLC. – Task Order 9

SCOPE OF WORK

Description of Services:

The State will seismically retrofit and replace joint seals and concrete barrier on SR-91 at Compton Creek Bridge OH (Bridge #53-2235) and Off-Ramp Bridge OH (Bridge No. 53-2237S) which cross over ACTA's Tracks. Installation of pull boxes, conductors, electroliers and replacement of existing joint seals with type B joint seals are also proposed, herein called ("Project").

Contractor shall provide flagging services to the State when the State is working on the Project at locations on or adjacent to the Alameda corridor. Prior to performing any flagging services for the State, RailWorks shall notify an ACTA representative regarding the State's (or its contractors') requests including for services, including dates(s) and location(s).

Contractor shall submit separate monthly invoices for this work along with the regular monthly invoice for the Contractor's on-going Maintenance of Way services. Project numbers and/or work descriptions for the additional work shall be listed on the invoice. Contractor shall submit a status report along with the invoice indicating the percentage of the total work that has been performed during the monthly period. Flagging rates billed must be in agreement with the ACTA approved rate(s) for that period. Prevailing wage rates apply.

If Contractor utilizes a subcontractor for this work, Contractor shall provide appropriate back-up from the subcontractor, as indicated in 5.7.1 of the contract. This information includes the subcontractor invoice, timesheets, etc.
